My Truck Safety Pledge

Waste Management Takes Safety Very Seriously.

Waste Management makes sure our drivers take every precaution to keep themselves and others safe. That includes you and your family. Please read this Truck Safety Pledge with your child and explain the importance of safety around service vehicles, like our big green trucks. Once you and your child have agreed to be safe, sign the pledge and hang it prominently in your home to serve as a reminder of truck safety.

Take the Pledge.

I promise to:

Always watch out for service trucks and keep a safe distance

Never try to touch a service truck that's picking up trash and/or recycling

Be safe around trash and recycling bins, especially when a truck is near
